BXC-03 Portable O2 Detector
Applications:

◆ Identify the density of O2 in office or workplace
◆ Identify the density of O2 in O2 producing workshop
◆ Identify the density of O2 in the train and bus
◆ Identify the density of O2 in coal mine
◆ Identify the density of O2 in mountaineering and airtight room
◆ Identify the density of O2 in cabin

Features:
◆ Various function with intelligentized design
◆ Clear reading in dark place with back light
◆ Performing zeroing, silencing, calibration and holding minimal data with one touch key
◆ 3V lithium battery, small size and high capability
◆ Light, sound alarm, easy setting

Reference:

◆ Model: BXC-03
◆ Measured gases: O2
◆ Measuring range: 0~25%VOL
◆ Error: 0.5%
◆ Response time: ≤ 30s
◆ Dimensions: 125 x 56 x 28mm
◆ Explosion proof certification No.: CNEx02.806
◆ Explosion proof mark: ExiaIICT4
