5.250" wide by 1.375" high**Description**

The Dataram DTM60118 Assembly is a 8M bit x 72 Synchronous Dynamic RAM high density memory module. The DTM60118 consists of eight CMOS Monolithic 8M x 8 bit Synchronous DRAMs in a TSOP-II 400Mil package, and one 2K EEPROM in 8 pin TSSOP package for Serial Presence Detect on a 168-pin glass-epoxy substrate. Synchronous design allows precise cycle control with the use of system clock. The DTM60118 is a Dual in-line Memory Module and is intended for mounting into 168-pin edge connector sockets.
