

FEATURES

- Maximum Offset Voltage: 1mV
- Maximum Bias Current: 15nA
- Typical Output Drive: 70mA
- Operates from 1.1V to 40V
- Internal Pull-Up Current
- Output Can Drive Loads Above V^+
- 30 μ A Supply Current (LT1017)
- 110 μ A Supply Current (LT1018)

APPLICATIONS

- Power Supply Monitors
- Relay Driving
- Oscillators

DESCRIPTION

The LT[®]1017/LT1018 are general purpose micropower comparators. The LT1017 is optimized for lowest operating power while the LT1018 operates at higher power and higher speed. Both devices can operate from a single 1.1V cell up to 40V. The output stage includes a class “B” pull-up current source, eliminating the need for an external resistive pull-up and saving power. The output stage is also designed to allow driving loads connected to a supply more positive than the device, as can comparators with open-collector output stages.

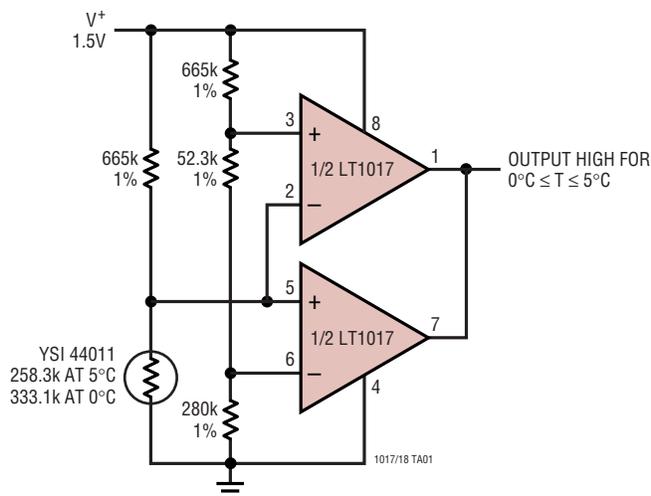

Input specifications are also excellent. On-chip trimming minimizes offset voltage, while high gain and common mode rejection ratio keep other input referred errors low. Common mode voltage range includes ground. Special circuitry prevents false output states even if the input is overdriven.

The LT1017/LT1018 are pin compatible with older dual comparators such as 393 type devices.

 LTC and LT are registered trademarks of Linear Technology Corporation.

TYPICAL APPLICATION

1.5V Powered Refrigerator Alarm

Supply Current

LT1017/LT1018

ABSOLUTE MAXIMUM RATINGS (Note 1)

Supply Voltage	40V
Differential Input Voltage	40V
Input Voltage	-0.3V to 40V
Short-Circuit Duration	Indefinite
Storage Temperature Range	-65°C to 150°C

Operating Temperature Range	
LT1017M/LT1018M	-55°C to 125°C
LT1017C/LT1018C	0°C to 70°C
LT1017I	-40°C to 85°C
Lead Temperature (Soldering, 10 sec)	300°C

PACKAGE/ORDER INFORMATION

Note 1: Absolute Maximum Ratings are those values beyond which the life of the device may be impaired.

Note 2: Offset voltage is guaranteed over a common mode voltage range of $V^- \leq V_{IN} \leq (V^+ - 0.9\text{V})$.

Note 3: No load gain is guaranteed but not tested (LT1017 only).
