

SSDI Bridge Rectifier Assembly

SINGLE PHASE 25 AMPS SDA 130 SERIES

- Average Output Current 25 Amps
- PIV 50 to 1000 Volts
- Max. Thermal Resistance 1.5°C/Watt*
- All Welded Interconnects
- Hermetically Sealed Diode Cells
- Universal 3 Way Terminals
- Aluminum Case

SSDI introduces a new and complete line of Single Phase, Rectifier Bridge Assemblies. Designed in aluminum cases to provide maximum thermal conductivity and simple operation. A unique 3 way terminal provides the designer a choice of using Faston terminals, wire wrap or soldering hole. This series features SSDI's exclusive glass passivated rectifier cells and welded interconnects for high reliability and mechanical strength. Fast recovery bridges are available on special order.

Consult your factory representative for engineering assistance.

Type	PIV per leg	Sine Wave RMS input Voltage Max	Average DC Output Amps TC = (case temp.)			Average DC Output Amps TA = Ambient Temp. (No heat Sink)			Peak 1 Cycle Forward surge	Peak Recurrent Forward	VF Max per leg @ 5 ADC	Reverse Current I _R Max. per leg @ PIV)
