

# TLV2620, TLV2621, TLV2622, TLV2623, TLV2624, TLV2625, TLV262xA FAMILY OF LOW-POWER WIDE BANDWIDTH SINGLE SUPPLY OPERATIONAL AMPLIFIERS WITH SHUTDOWN

SLOS251B – DECEMBER 2000 – REVISED APRIL 2001

- CMOS Rail-To-Rail Output
- $V_{ICR}$  Includes Positive Rail
- Wide Bandwidth . . . 11 MHz
- Slew Rate . . . 10 V/ $\mu$ s
- Supply Current . . . 800  $\mu$ A/Channel
- Input Noise Voltage . . . 27 nV/ $\sqrt{\text{Hz}}$
- Ultralow Power Down Mode
  - $I_{DD(\text{SHDN})} = 4 \mu\text{A}/\text{Channel}$
- Supply Voltage Range . . . 2.7 V to 5.5 V
- Specified Temperature Range
  - $-40^\circ\text{C}$  to  $125^\circ\text{C}$  . . . Industrial Grade
- Ultrasmall Packaging
  - 5 or 6 Pin SOT-23 (TLV2620/1)
  - 8 or 10 Pin MSOP (TLV2622/3)
- Universal Opamp EVM (See SLOU060 for More Information)

## description

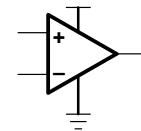

The TLV262x single supply operational amplifiers provide rail-to-rail output with an input range that includes the positive rail. The TLV262x takes the minimum operating supply voltage down to 2.7 V over the extended industrial temperature range ( $-40^\circ\text{C}$  to  $125^\circ\text{C}$ ) while adding the rail-to-rail output swing feature. The TLV262x also provides 11-MHz bandwidth from only 800  $\mu$ A of supply current. The maximum recommended supply voltage is 5.5 V, which, when coupled with a 2.7-V minimum, allows the devices to be operated from lithium ion cells.

The combination of wide bandwidth, low noise, and low distortion makes it ideal for high speed and high resolution data converter applications. The positive input range allows it to directly interface to positive rail referred systems.

All members are available in PDIP and SOIC with the singles in the small SOT-23 package, duals in the MSOP, and quads in the TSSOP package.

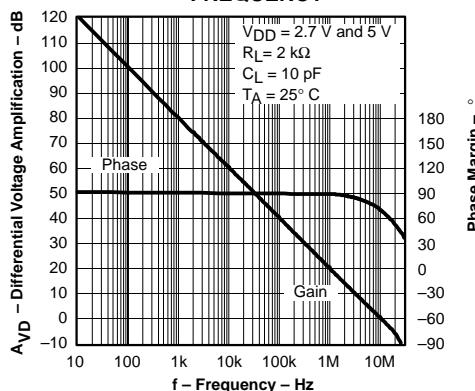

The 2.7-V operation makes it compatible with Li-Ion powered systems and the operating supply voltage range of many micro-power micro-controllers available today including TI's MSP430.

SLOS251B – DECEMBER 2000 – REVISED APRIL 2001

**absolute maximum ratings over operating free-air temperature range (unless otherwise noted)<sup>†</sup>**

Supply voltage, $V_{DD}$ (see Note 1) .....	6 V
Differential input voltage, $V_{ID}$ .....	$\pm V_{DD}$
Input voltage range, $V_I$ (see Note 1) .....	1 to $V_{DD}$ +0.2 V
Input current, $I_I$ (any input) .....	$\pm 10$ mA
Output current, $I_O$ .....	$\pm 40$ mA
Continuous total power dissipation .....	See Dissipation Rating Table
Operating free-air temperature range, $T_A$ : I suffix .....	-40°C to 125°C
Maximum junction temperature, $T_J$ .....	150°C
Storage temperature range, $T_{STG}$ .....	-65°C to 150°C
Lead temperature 1.6 mm (1/16 inch) from case for 10 seconds .....	260°C

<sup>†</sup> Stresses beyond those listed under "absolute maximum ratings" may cause permanent damage to the device. These are stress ratings only, and functional operation of the device at these or any other conditions beyond those indicated under "recommended operating conditions" is not implied. Exposure to absolute-maximum-rated conditions for extended periods may affect device reliability.

NOTE 1: All voltage values, except differential voltages, are with respect to GND.

**DISSIPATION RATING TABLE**

FAMILY OF LOW-POWER WIDE BANDWIDTH SINGLE SUPPLY  
OPERATIONAL AMPLIFIERS WITH SHUTDOWN**

SLOS251B – DECEMBER 2000 – REVISED APRIL 2001

**MECHANICAL INFORMATION**

**DGS (S-PDSO-G10)**

**PLASTIC SMALL-OUTLINE PACKAGE**

- NOTES: A. All linear dimensions are in millimeters.  
 B. This drawing is subject to change without notice.  
 C. Body dimensions do not include mold flash or protrusion.

**TLV2620, TLV2621, TLV2622, TLV2623, TLV2624, TLV2625, TLV262xA  
FAMILY OF LOW-POWER WIDE BANDWIDTH SINGLE SUPPLY  
OPERATIONAL AMPLIFIERS WITH SHUTDOWN**

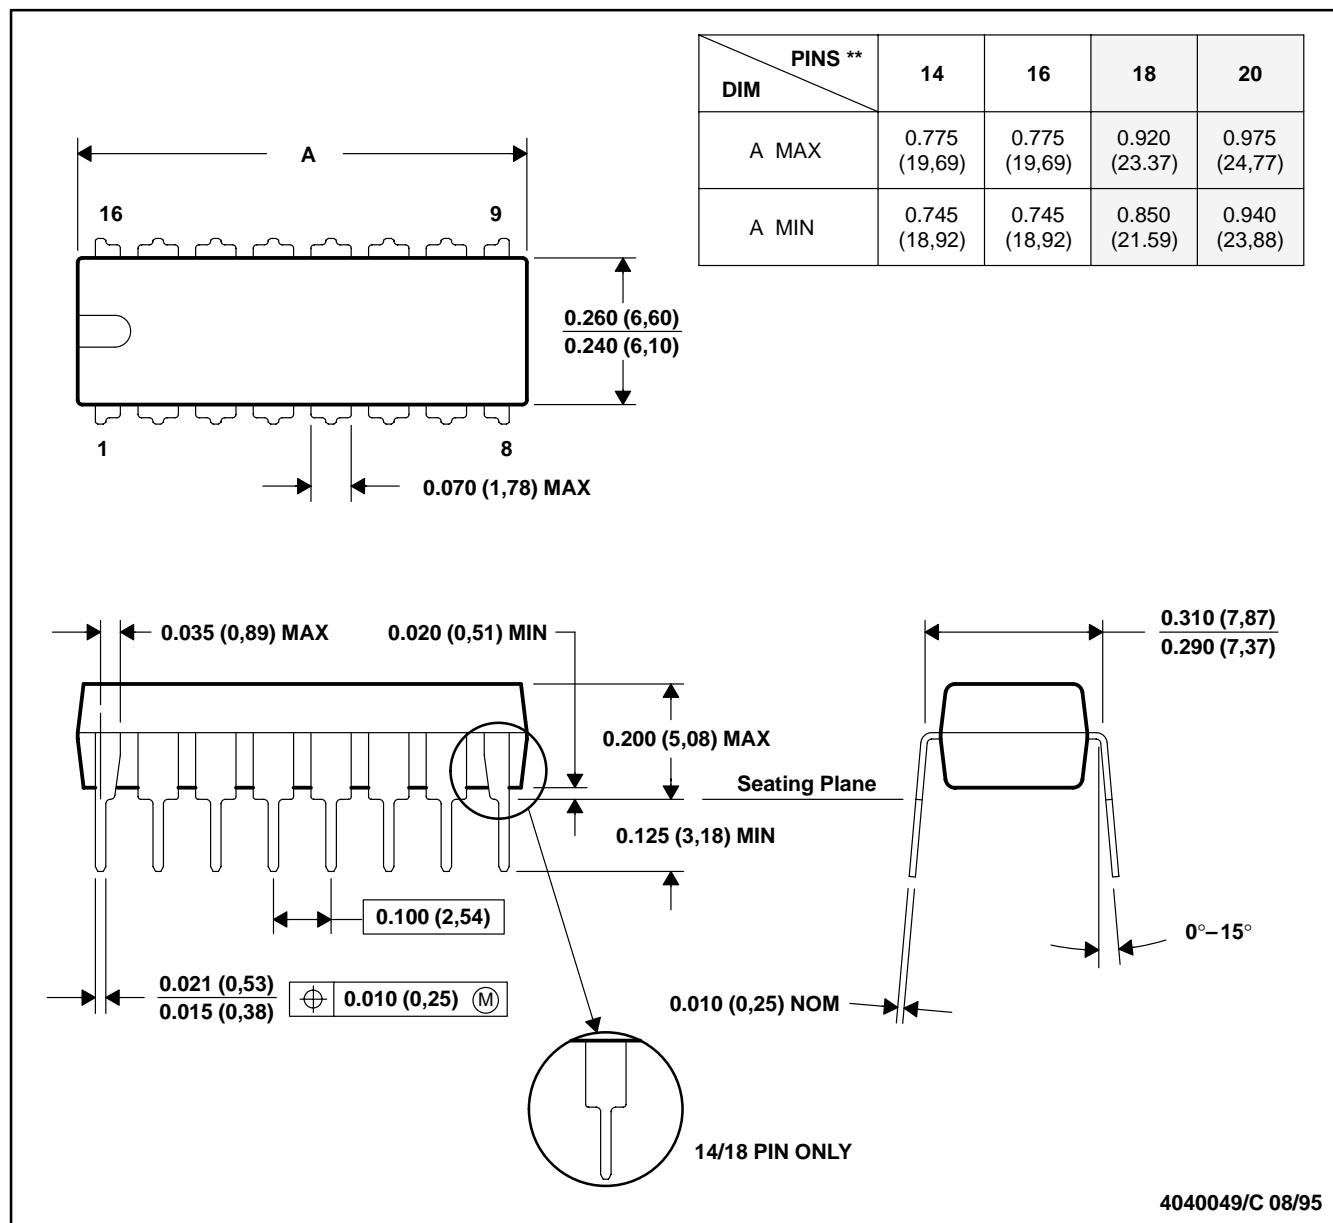

SLOS251B – DECEMBER 2000 – REVISED APRIL 2001

**MECHANICAL INFORMATION**

**N (R-PDIP-T\*\*)**

16 PIN SHOWN

**PLASTIC DUAL-IN-LINE PACKAGE**

- NOTES:
- All linear dimensions are in inches (millimeters).
  - This drawing is subject to change without notice.
  - Falls within JEDEC MS-001 (20 pin package is shorter than MS-001.)

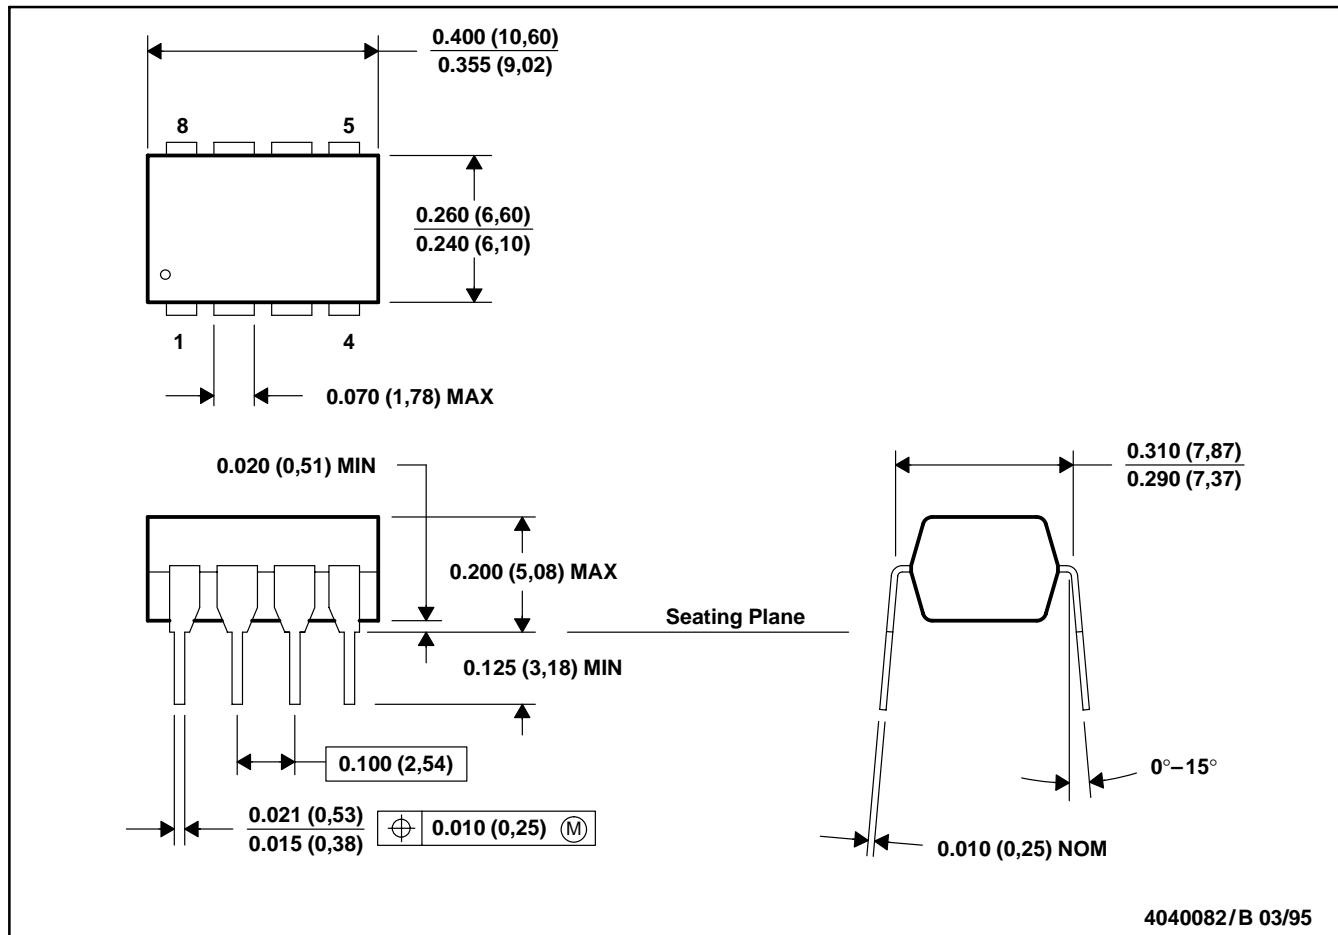

**TLV2620, TLV2621, TLV2622, TLV2623, TLV2624, TLV2625, TLV262xA  
FAMILY OF LOW-POWER WIDE BANDWIDTH SINGLE SUPPLY  
OPERATIONAL AMPLIFIERS WITH SHUTDOWN**

SLOS251B – DECEMBER 2000 – REVISED APRIL 2001

**MECHANICAL INFORMATION**

**P (R-PDIP-T8)**

**PLASTIC DUAL-IN-LINE PACKAGE**

- NOTES:
- A. All linear dimensions are in inches (millimeters).
  - B. This drawing is subject to change without notice.
  - C. Falls within JEDEC MS-001

FAMILY OF LOW-POWER WIDE BANDWIDTH SINGLE SUPPLY  
OPERATIONAL AMPLIFIERS WITH SHUTDOWN**

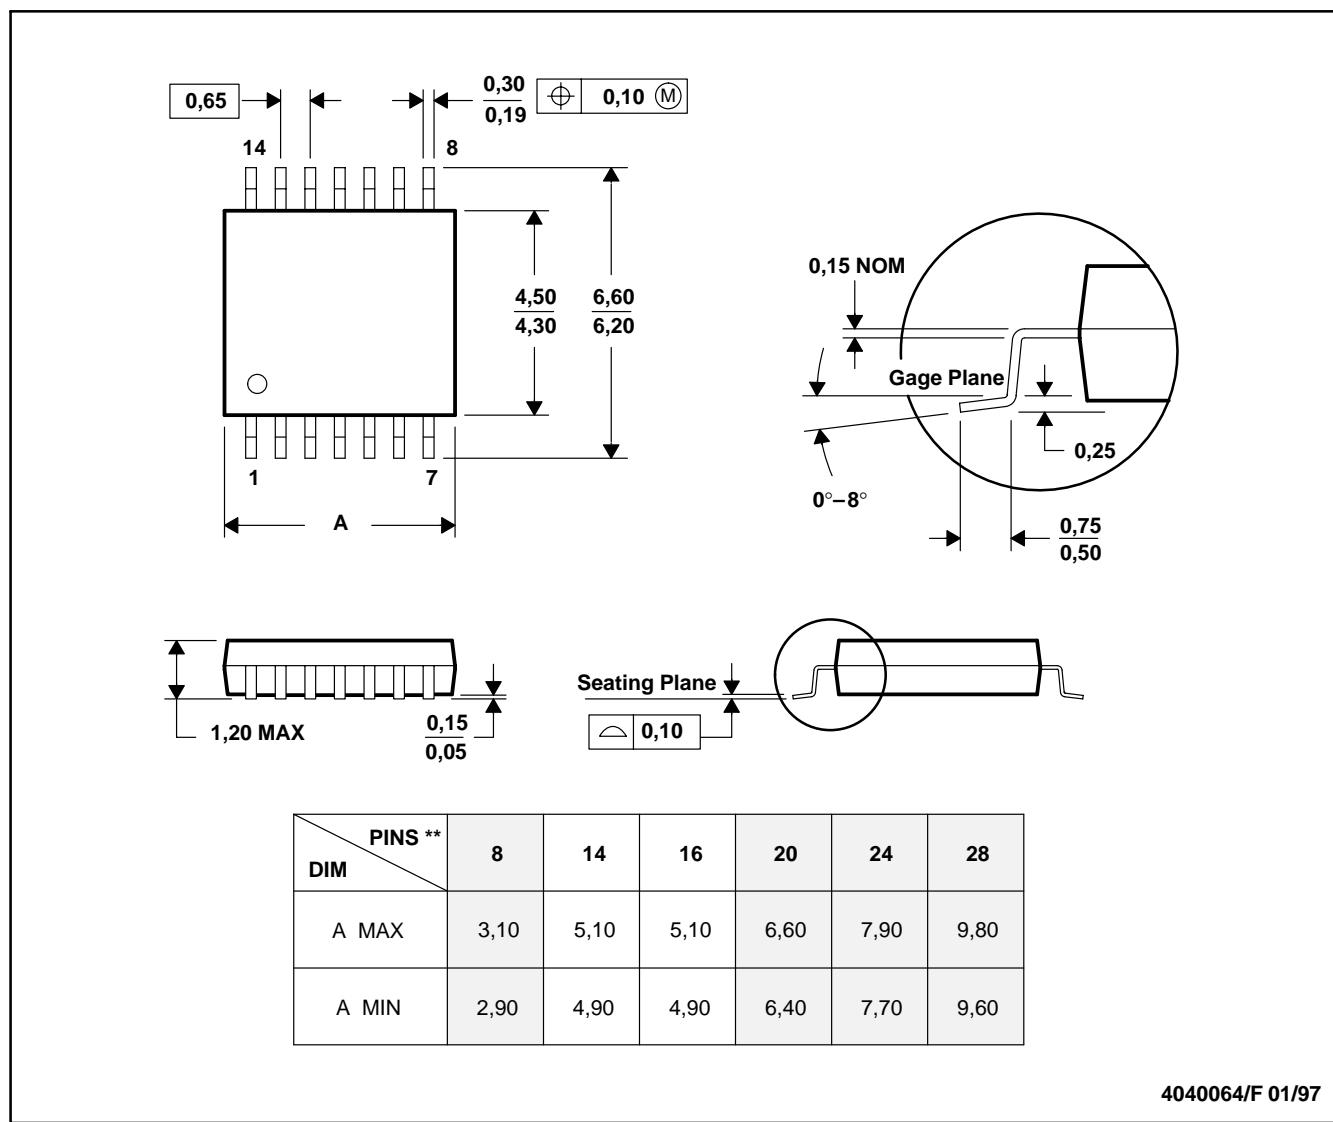

SLOS251B – DECEMBER 2000 – REVISED APRIL 2001

**MECHANICAL INFORMATION**

**PW (R-PDSO-G\*\*)**

**PLASTIC SMALL-OUTLINE PACKAGE**

**14 PINS SHOWN**

4040064/F 01/97

NOTES: A. All linear dimensions are in millimeters.

B. This drawing is subject to change without notice.

C. Body dimensions do not include mold flash or protrusion not to exceed 0,15.

D. Falls within JEDEC MO-153

## **IMPORTANT NOTICE**

Texas Instruments and its subsidiaries (TI) reserve the right to make changes to their products or to discontinue any product or service without notice, and advise customers to obtain the latest version of relevant information to verify, before placing orders, that information being relied on is current and complete. All products are sold subject to the terms and conditions of sale supplied at the time of order acknowledgment, including those pertaining to warranty, patent infringement, and limitation of liability.

TI warrants performance of its products to the specifications applicable at the time of sale in accordance with TI's standard warranty. Testing and other quality control techniques are utilized to the extent TI deems necessary to support this warranty. Specific testing of all parameters of each device is not necessarily performed, except those mandated by government requirements.

Customers are responsible for their applications using TI components.

In order to minimize risks associated with the customer's applications, adequate design and operating safeguards must be provided by the customer to minimize inherent or procedural hazards.

TI assumes no liability for applications assistance or customer product design. TI does not warrant or represent that any license, either express or implied, is granted under any patent right, copyright, mask work right, or other intellectual property right of TI covering or relating to any combination, machine, or process in which such products or services might be or are used. TI's publication of information regarding any third party's products or services does not constitute TI's approval, license, warranty or endorsement thereof.

Reproduction of information in TI data books or data sheets is permissible only if reproduction is without alteration and is accompanied by all associated warranties, conditions, limitations and notices. Representation or reproduction of this information with alteration voids all warranties provided for an associated TI product or service, is an unfair and deceptive business practice, and TI is not responsible nor liable for any such use.

Resale of TI's products or services with *statements different from or beyond the parameters* stated by TI for that product or service voids all express and any implied warranties for the associated TI product or service, is an unfair and deceptive business practice, and TI is not responsible nor liable for any such use.
