

High Efficiency LED, ø 3 mm Tinted Undiffused Package

| Color | Type | Technology | Angle of Half Intensity $\pm\varphi$ |
|---------------------|----------|--------------|---|
| High efficiency red | TLHR42.. | GaAsP on GaP | 22° |
| Soft orange | TLHO42.. | GaAsP on GaP | 22° |
| Yellow | TLHY42.. | GaAsP on GaP | 22° |
| Green | TLHG42.. | GaP on GaP | 22° |
| Pure green | TLHP42.. | GaP on GaP | 22° |

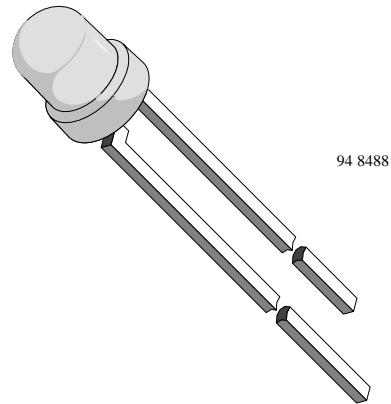

Description

The TLH.42.. series was developed for standard applications like general indicating and lighting purposes.

It is housed in a 3 mm tinted clear plastic package. The wide viewing angle of these devices provides a high on-off contrast.

Several selection types with different luminous intensities are offered. All LEDs are categorized in luminous intensity groups. The green and yellow LEDs are categorized additionally in wavelength groups.

That allows users to assemble LEDs with uniform appearance.

94 8488

Features

- Choice of five bright colors
- Standard T-1 package
- Small mechanical tolerances
- Suitable for DC and high peak current
- Wide viewing angle
- Luminous intensity categorized
- Yellow and green color categorized

Applications

Status lights
OFF / ON indicator
Background illumination
Readout lights
Maintenance lights
Legend light

Absolute Maximum Ratings

$T_{amb} = 25^\circ C$, unless otherwise specified

TLHR42.. , TLHO42.. , TLHY42.. , TLHG42.. , TLHP42..

| Parameter | Test Conditions | Symbol | Value | Unit |
|-------------------------------------|-------------------------------|------------|-------------|------|
| Reverse voltage | | V_R | 6 | V |
| DC forward current | | I_F | 30 | mA |
| Surge forward current | $t_p \leq 10 \mu s$ | I_{FSM} | 1 | A |
| Power dissipation | $T_{amb} \leq 60^\circ C$ | P_V | 100 | mW |
| Junction temperature | | T_j | 100 | °C |
| Operating temperature range | | T_{amb} | -40 to +100 | °C |
| Storage temperature range | | T_{stg} | -55 to +100 | °C |
| Soldering temperature | $t \leq 5 s$, 2 mm from body | T_{sd} | 260 | °C |
| Thermal resistance junction/ambient | | R_{thJA} | 400 | K/W |

Ozone Depleting Substances Policy Statement

It is the policy of **Vishay Semiconductor GmbH** to

1. Meet all present and future national and international statutory requirements.
2. Regularly and continuously improve the performance of our products, processes, distribution and operating systems with respect to their impact on the health and safety of our employees and the public, as well as their impact on the environment.

It is particular concern to control or eliminate releases of those substances into the atmosphere which are known as ozone depleting substances (ODSs).

The Montreal Protocol (1987) and its London Amendments (1990) intend to severely restrict the use of ODSs and forbid their use within the next ten years. Various national and international initiatives are pressing for an earlier ban on these substances.

Vishay Semiconductor GmbH has been able to use its policy of continuous improvements to eliminate the use of ODSs listed in the following documents.

1. Annex A, B and list of transitional substances of the Montreal Protocol and the London Amendments respectively
2. Class I and II ozone depleting substances in the Clean Air Act Amendments of 1990 by the Environmental Protection Agency (EPA) in the USA
3. Council Decision 88/540/EEC and 91/690/EEC Annex A, B and C (transitional substances) respectively.

Vishay Semiconductor GmbH can certify that our semiconductors are not manufactured with ozone depleting substances and do not contain such substances.

We reserve the right to make changes to improve technical design and may do so without further notice.

Parameters can vary in different applications. All operating parameters must be validated for each customer application by the customer. Should the buyer use Vishay-Telefunken products for any unintended or unauthorized application, the buyer shall indemnify Vishay-Telefunken against all claims, costs, damages, and expenses, arising out of, directly or indirectly, any claim of personal damage, injury or death associated with such unintended or unauthorized use.
